Location: I-Iiang Vehicle Maintenance Facility is located approximately 0.5km northwest of the city of I-Iiang. It is in the immediate vicinity of the three areas of the I-Iiang Barracks.

General : This report is based on a chronological study utilizing the earliest* coverage and all subsequent high-resolution photography of the installation. The number in parenthesis after dimensions (e.g., 7x) indicates the estimated building capacity for wheeled vehicles. Square footage is shown for barracks, quarters, messhalls and storage facilities.

This facility appears to be an active vehicle maintenance area. The presence of probable barracks buildings, and sighting of antiaircraft weapons at the facility suggest a military support role.
